This will be your first obligatory event. Here you will receive a lot of organizational information about the study curriculum, get the timetable for the winter semester 2024/25 and have the opportunity to get to know the professors and employees of the Department of Maritime Studies, Systems Engineering and Logistics. In addition, you will have the possibility to talk casually to students of higher semesters and to get maybe one or the other important advice for your study.

Kind regards,

Prof. Dr. jur. Robert Peetz
Study Supervisor
